To Whom It May Concern,

I am pleased to provide this letter of recommendation for Iris and the team at Wanrun.

We have worked closely with Iris for over a year, sourcing multiple containers of LVT and SPC flooring each month for a range of residential and hospitality projects, including developments for global hotel chains and high-traffic restaurants.

Iris is a knowledgeable and highly accommodating professional. Her ability to quickly assess situations and coordinate effectively with her production team ensures that every transaction runs smoothly. The products themselves are consistently high-quality, well-packaged, and have been very well received in the UK market.

We hold our relationship with Iris and Wanrun in high regard—not only do we highly recommend them, we're almost reluctant to share how good they are!

Sincerely,

Rob Eckersley
Director
Impervia Flooring
